

TYPE TESTED DISTRIBUTION BOARDS

We provide main distribution boards which are suitable for the applications up to 6300 ampere range and the structure from FORM 1 up to FORM 4b according to IEC 61439-1/2.

In addition to the main bare applications which are higher than 6300 ampere, the synchronisation boards, coupling boards and main distribution boards are designed to be independent of switchgear brands.

In addition to our standard products, we provide special solutions for every need according to various ambient conditions in different kind of projects.
